

OSPRY
by Legion

Visitor identification for DTC and e-commerce. A Legion Code Inc. product.

Your best shoppers leave without a trace.

Observe. Score. Profile. Reach. Yield. The name is the method.

Most shoppers browse, compare, hesitate at the cart, and vanish before your email pop-up ever gets a chance. OSPRY identifies the anonymous US people on your store, captures how close each one got to buying, and routes them into Klaviyo, your ESP, and your flows. Recovered revenue from traffic you already paid for.

The one line

Cart tools only see people who logged in or typed an email. OSPRY names the shoppers who never got that far, which is most of them.

What it does for a store

SEE	KNOW	REACH
Name the shopper. Anonymous US visitors become real people with real emails. Worldwide, you still get useful signals.	Read the intent. Products viewed, time at the cart, the hesitation before the exit. High-intent shoppers get flagged automatically.	Recover the sale. Identified shoppers flow into Klaviyo and your email flows. Ad audiences are coming soon. Big baskets can route to a human.

Why stores pick OSPRY

- **It catches what pop-ups miss.** Email capture gets a sliver. Identification works on the silent majority who never type anything.
- **High-ticket gets a human.** A \$40 abandoned cart gets an email. A \$4,000 one gets routed to a person, fast, with full context.
- **Consent is built in, free.** A white-label consent platform on every plan keeps the whole motion defensible, with one-step opt-out.
- **Built around you.** Customer first. New features ship every 24 hours through this launch window, and if we do not have your integration, we will do our best to build it.

Pricing that respects the math

Start free with the consent platform, or take the \$1 trial: thirty days of everything with \$10 in credits at reduced rates, top up anytime. Paid plans are a flat monthly fee plus a low per-identified-person rate from a prepaid wallet. Repeat visitors are free. No contracts, cancel anytime.

Plan	Price	Usage	Built for
Free	\$0	n/a	The white-label consent platform, forever
\$1 Trial	\$1	reduced rates	30 days of everything, \$10 in credits
Starter	\$100/mo	36¢ / lead	Identification + basic intent
Pro	\$150/mo	33¢ / lead	Full intent, automation, full connectors
Pro+	\$250/mo	30¢ + 18¢ enrich	AI briefs, fit scores, on-site surveys

The honest boundaries

Person-level identification is US-only by compliance design; elsewhere you get the company. Native ad audiences are coming soon, not live. The \$1 trial converts to a paid plan after 30 days unless you cancel, and we say that at checkout. We would rather lose a sale than fudge a claim.

Start for \$1 at ospry.ai. Watch real shoppers appear in your feed within minutes of installing.
