

**OSPRY**  
by Legion

*Person-level website visitor identification, first-party intent, and AI. A Legion Code Inc. product.*

# See the people behind your traffic.

**Observe. Score. Profile. Reach. Yield.** The name is the method.

Up to 98 in 100 of your website visitors leave without filling out a form. OSPRY turns that anonymous US traffic into named people and companies, captures everything they did on your site, writes an AI sales brief on each one, and routes the best-fit people into the tools your team already uses.

## The one line

**See who is on your site. Know who they are. Reach them where they already are.**

## The problem

You spend on ads, SEO, content, and outbound to drive traffic. Almost all of it leaves anonymous. Those visitors read your pricing page and watched your demo, but your CRM, your email list, and your attribution tool only see the few who filled out a form. The rest is invisible pipeline.

## What OSPRY does

| SEE                                                                                                                                                                           | KNOW                                                                                                                                          | REACH                                                                                                                                   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Identify and observe.</b><br>Which companies, and in the US which named people, visited, plus everything they did: pages, repeat visits, downloads, video, scroll, intent. | <b>Enrich and score.</b> An AI sales brief on each person, scored 0 to 100 against your ICP, plus recognition of the people you already know. | <b>Activate.</b> Route the best-fit people to HubSpot, Salesforce, Slack, Clay, and thirty-plus tools. Native ad audiences coming soon. |

## Why teams choose OSPRY

- **Two providers, more coverage.** OSPRY runs two identification feeds, so you name more of your traffic than any single-feed tool.
- **Intent, not just identity.** A first-party behavior layer OSPRY built and owns, so you see what each visitor actually did, not just who they are.
- **An AI that knows your business.** AI briefs on every visitor, plus an assistant trained on your own company and products.
- **A free consent platform.** Included on every plan. It gates identification and keeps your data defensible.

- **Built around you.** Customer first; B2B and DTC alike. We are shipping new features every 24 hours through this launch window, and if we do not have your integration, we will do our best to build it.
- **Run it as your own product.** Agencies white-label OSPRY and rebill clients through their own Stripe.

## Pricing

Start free with the consent platform, or take the \$1 trial: thirty days of everything with \$10 in credits at reduced rates, top up anytime. Paid plans are a flat monthly fee plus a low per-identified-person rate from a prepaid wallet you draw down only as people are identified. No contracts, cancel anytime.

| Plan      | Flat fee | Per identified person | Adds                                              |
|-----------|----------|-----------------------|---------------------------------------------------|
| Free      | \$0      | n/a                   | The white-label consent platform, forever         |
| \$1 Trial | \$1      | reduced rates         | 30 days of everything, \$10 in credits            |
| Starter   | \$100/mo | 36¢                   | Resolution, first-party intent, API               |
| Pro       | \$150/mo | 33¢                   | All fields, email click tracking, full connectors |
| Pro+      | \$250/mo | 30¢ + 18¢             | AI enrichment, fit scores, on-site surveys        |
| Agency    | \$500/mo | 27¢ + 15¢             | White-label, sub-accounts, rebilling              |

## Honest by design

Person-level identification is US-only; outside the US you get the company. OSPRY resolves identity across best-in-class providers and owns the intent, enrichment, consent, and AI layer on top. Native ad-audience activation across Google, LinkedIn, Facebook, and TikTok is coming soon. Free is a real, permanent plan. The \$1 trial converts to a paid plan after 30 days unless you cancel, and we say so up front.

**Start for \$1 at [ospry.ai](https://ospry.ai).** Watch real people appear in your feed within minutes of installing.
